Our Apple Cider Vinegar Gummies are made with the mother, they're also unfiltered, and raw. Goli Gummies offer you the benefits of Apple Cider Vinegar without the discomfort of the actual vinegar. # TRADITIONAL APPLE CIDER VINEGAR vs GOLI ACV GUMMIES

Why do we believe people will love **Goli Gummies**? Simply because we have created a groundbreaking blend (Patent Pending) that has made Apple Cider Vinegar and all of its benefits accessible to everyone without the unpleasant taste of traditional Apple Cider Vinegar.

2 GOLI GUMMIES =  
1 TRADITIONAL SHOT  
OF APPLE CIDER VINEGAR

- The vinegar in ACV can cause throat irritation
- You might find that the enamel on your teeth erodes
- Might affect your stomach and digestion if you take a shot on an empty stomach over a long period of time

We've worked hard to create a special blend that allows our gummies to not only be delicious, but also vegan, gluten free and with no GMO's. That's because unlike our competitors, we don't use a pork based gelatin or corn-syrup as an ingredient. Instead, we use pectin, an orange based fiber, in order to achieve that gummy texture that makes Goli taste like candy. We are proud to say that Goli Gummies are compatible with any lifestyle and diet!

# ALL THE BENEFITS WITHOUT THE SOUR TASTE!

Apples are ranked as one of the healthiest foods rich in antioxidants, fiber and vitamin C.

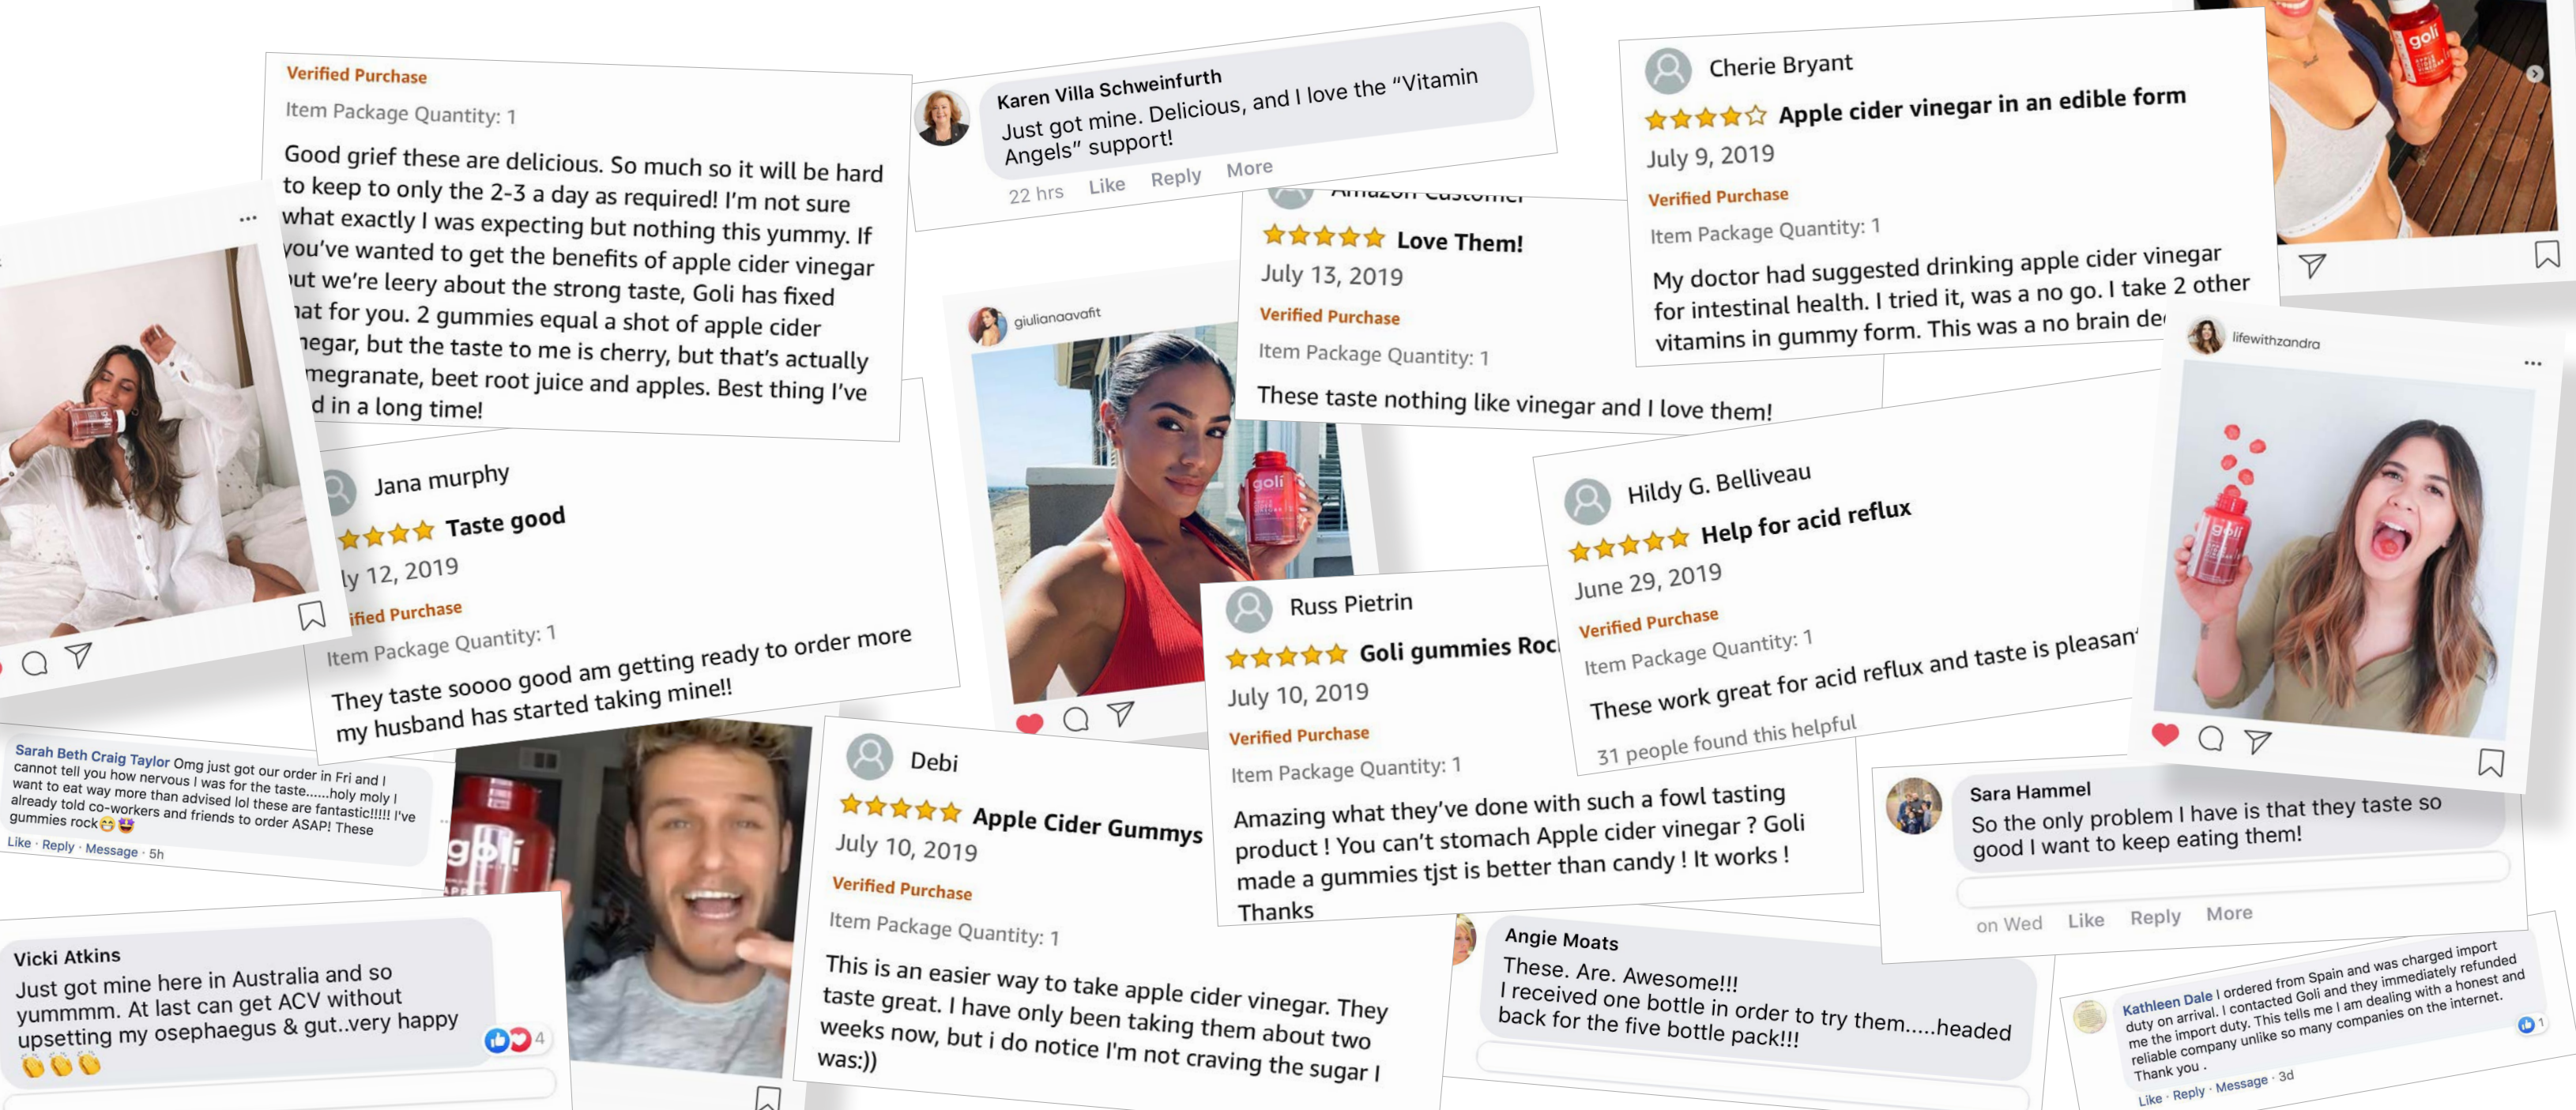

Fermented into Apple Cider Vinegar they produce an acetic acid that boasts a range of health benefits.

The thing about vinegar is it's highly acidic and too sour for most. Over time, it can even cause damage to both the esophagus and tooth enamel.
